College of Health and Public Service

Majors

Addiction Studies*	The BS in Addiction Studies prepares students to work directly with individuals with substance use disorders and process addictions (e.g., gambling, disordered eating, etc.) in order to facilitate long-term recovery, autonomy, and improved quality of life. The program's curriculum meets the criteria for the credential as a Licensed Chemical Dependency Counselor in the State of Texas and serves as a robust foundation for graduate study.
Audiology & Speech Language Pathology*	The bachelor's degree is a pre-professional degree for persons wishing to pursue graduate study in speech language pathology & audiology. The pre-professional program provides basic preparation in the normal development & functioning of speech, language, & hearing & introductory courses concerned with communication disorders & appropriate remedial procedures. Satisfactory completion of the master's programs or the professional doctorate program enables individuals to meet the academic & clinical practicum requirements for ASHA's <i>Certificate of Clinical Competence</i> & the state of Texas license in speech-language pathology and/or audiology.
Behavior Analysis*	The program in applied behavior analysis is the only such program in Texas & among only a few in the nation. Autism, developmental disabilities, education, organizational behavior management, & animal behavior are examples of specific specialties in behavior analysis, but graduates can apply what they learn to almost any career area.
Criminal Justice*	One of the ten largest undergraduate programs at UNT, Criminal Justice features a nationally recognized faculty, most of whom have professional experience in the field. Students are prepared for challenging careers in public sector law enforcement, corrections, court-related employment, private sector loss prevention, & investigative work.
Emergency Administration & Planning*	EADP is the premier degree program in emergency management in the United States. Students learn about hazards and risk, and they develop skills to mitigate and respond to a variety of natural, technological, and civil disasters. The challenges of terrorism and homeland security make this an attractive degree for students and current professionals alike.
Nonprofit Leadership Studies *	The Nonprofit Leadership Studies undergraduate degree is designed to prepare students for careers in functional areas of program & service delivery, general management, volunteer management, grants administration, advocacy, general finance, & fundraising. Students gain a competitive edge for positions in major nonprofits, including United Way, The American Red Cross, The Humane Society, Habitat for Humanity, & other local organizations. Interested students will also be well-positioned to pursue graduate work.
Public Health*	The bachelor's degree in Public Health is a pre-professional degree designed to prepare students for a career in the health care industry. As professionals, they will be able to work with nonprofit organizations, hospitals, health departments, & other health-related fields & market areas. This undergraduate degree will also better prepare students wishing to pursue a graduate degree in Public Health.
Rehabilitation Studies*	Rehabilitation professionals work in partnership with people with physical, mental, & addiction disabilities to live & participate as full members of their communities. Students develop practical skills that lead to self-determination, responsibility, & personal empowerment—both for themselves & for the people they serve.
Social Work	The Social Work program is a nationally accredited generalist BSW program that prepares professionals for practice working with children & other disenfranchised & at-risk populations. Students who complete the program are immediately eligible for state licensure & may qualify for advanced standing in graduate social work programs.
Urban Policy & Planning*	This program is designed for students who are looking for opportunities to pursue professional careers in city & regional planning. Students will be ready for professional careers in city & regional government, state & federal government, private development, housing, transit, nonprofits, & more.

* also available as a minor

Other minors options

Conflict Resolution	The Conflict Resolution program through the Department of Public Administration teaches students theories of conflict management and conflict resolution skills. Through these courses, students learn such procedures as arbitration, mediation, negotiation, neutral fact-finding, panel review and other alternatives to litigation.
Applied Gerontology	The Applied Gerontology minor focuses on the processes of aging, changes in individuals as they age, how society affects & is affected by aging, & how current information & technology can be implemented to help care for the aging. UNT also offers an Undergraduate Certificate in Applied Gerontology.
Human Service	Human Services is an emerging professional identity in various human service agencies. Completion of the minor will ensure that students have the exposure and knowledge to work in a range of Human Service fields successfully. The program provides marketable skills that are attractive to prospective employers, such as learning how to identify drug problems in the workplace and how to successfully work with others.
Public Administration	Public Administration offers a minor for undergraduate students. This minor strengthens many UNT degree programs by providing an overview of management & fiscal functions.

Certificate Programs

Applied Gerontology	The Applied Gerontology certificate focuses on the processes of aging, changes in individuals as they age, how society affects and is affected by aging, and how current information and technology can be implemented to help care for the aging
Conflict Resolution	The Conflict Resolution Certificate consists of 12 hours of coursework—9 hours of required courses and 3 hours of required electives. These courses introduce students to formal negotiation practices & mediation, a type of facilitated negotiation. Students also have the opportunity to observe firsthand how these practices are used to settle real conflicts. This Certificate is an excellent addition to your professional toolkit, whether your ultimate career goals are in law, business, criminal justice, education, or another field.
Rehabilitation Studies	The undergraduate academic certificate in rehabilitation studies provides students with the fundamental knowledge and skills for interaction with individuals with disabilities.
Substance Use Disorders Treatment	The undergraduate academic certificate in substance use treatment provides a basic foundation to help students prepare for licensure as a chemical dependency counselor (LCDCC). Completion of the certificate also contributes to skills applicable in any human service field.
Trauma-Informed Care	The undergraduate academic certificate in Trauma-informed care is a powerful framework that provides a means to better recognize the symptoms of trauma, understand its impact, and develop the knowledge base and skills to address the needs of individuals with trauma histories. This certificate is interdisciplinary and can benefit a wide range of professions interacting with individuals who have experienced trauma.
Volunteer & Community Resource Management	This is a 12-semester credit hours certificate program that is composed of full-length, for-credit college courses and provides blended courses for more flexibility. It is endorsed by the Association for Volunteer Administration, the premier professional organization for volunteer and community-based leaders in the country. The certificate can be earned as a part of an 18-semester credit hours minor in Nonprofit Leadership Studies.
